## Weekly Cold-related Illness Surveillance Report

December 21, 2016 Reporting for December 13, 2016 to December 19, 2016

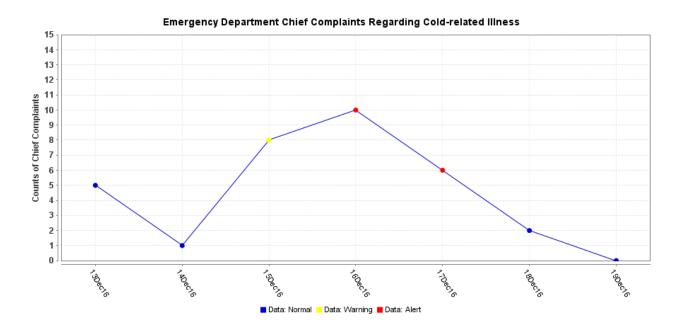

National Weather Service Forecast: No current advisories.
Wind Chill Advisories Declared During the Previous Week: 2
Total Wind Chill Advisories Declared This Winter: 2

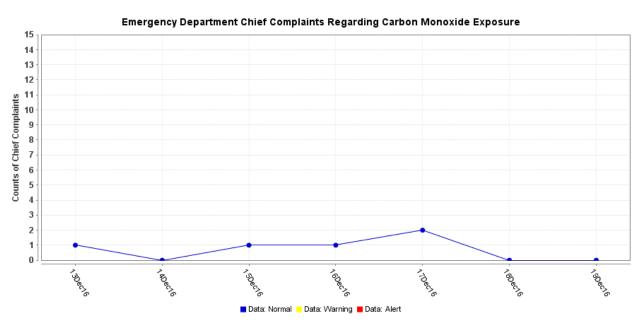

Wind Chill is only calculated for temperatures below 50°F and wind speeds above 3 mph

**Note on Emergency Department Data:** The results from the query used in ESSENCE, an electronic biosurveillance system, to track cold-related illnesses may be an overestimation of the actual burden of illness related to the cold weather. This overestimation is due to the nature of the query, which includes the term hypothermia and frostbite.

**Note on EMS Data:** These data are based on EMS pre-hospital care reports where the EMS provider has selected hypothermia as a primary or secondary impression of a patient's illness. This impression is solely based on the signs and symptoms seen by the provider, not on any diagnostic tests. Since these numbers do not include all primary or secondary impressions that may be seen with cold exposure, the actual numbers may be low. These data are reported for trending purposes only.

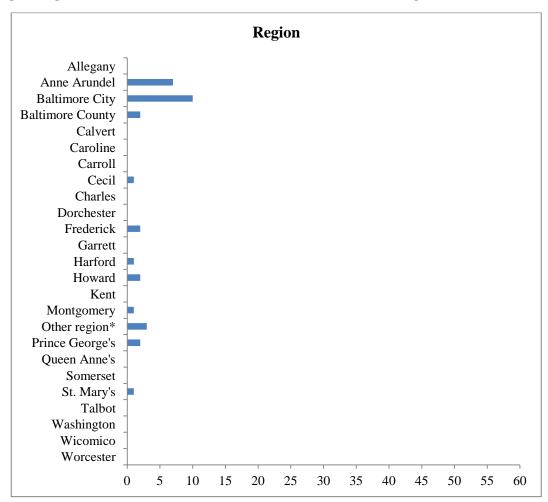

Date	Number of Chief Complaints	Number of Chief Complaints Regarding	
	Regarding Cold-related Illness	Carbon Monoxide Exposure	
December 13	5	1	
December 14	1	0	
December 15	8	1	
December 16	10	1	
December 17	6	2	
December 18	2	0	
December 19	0	0	

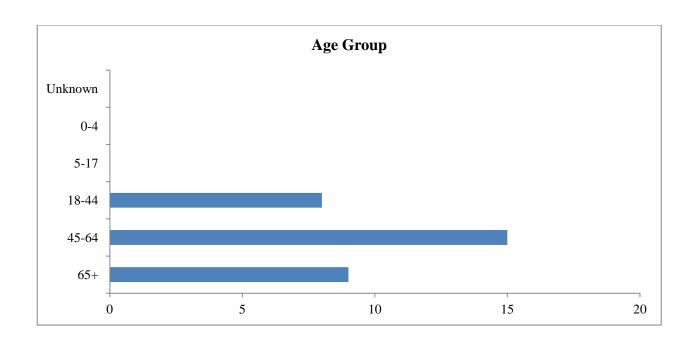

<sup>\*</sup>Note: ESSENCE chief complaint query for cold-related illness contains the following terms: frostbite, frostnip, hypothermia, chilblain, and trench foot

There were no chief complaint clusters identified this week.

## Geographical and Age Group Distribution of Emergency Department Chief Complaints Regarding Cold-related Illnesses for December 13, 2016 through December 19, 2016

<sup>\*</sup>Geographical distribution of emergency department chief complaints is based on patients' jurisdictions of residence. The ''Other Region' category includes patient records without a ZIP code and patients who reside outside of Maryland.

Total Number of Cold-related Deaths	Jurisdiction*	Age Group	Gender
1	Baltimore City**	65+ Years Old	Female

<sup>\*</sup>Refers to the jurisdiction where the death occurred.

There was one cold-related death reported this week.

There has been one cold-related death during the reporting period this winter.

For media inquiries, please contact the Office of Communications: <u>410-767-6490</u>

**Wind Chill Advisory/Warning Criteria:** The National Weather Service issues a Wind Chill Advisory for projected wind chill factors of -5°F to -20°F, and a Wind Chill Warning when the projected wind chill is for -20° or less.

For more information about extreme cold and emergency preparedness, follow the Office of Preparedness and Response on <u>Twitter</u> and <u>Facebook</u>.

<sup>\*\*</sup>Refers to a newly listed death
